Summo profecto gaudio accipi utraque litteras egregiae dona,
spem interim ~~in~~ epistolam quam ad diem 7 Junii ad Te dederam
recte ad Te pervenisse.

Nihil profecto animum afflictum, magis exhilarare, studiumque novo
quasi ardore prosequi, gravioribus argumentis suadere poterant, ac
ex quibus me tua magnificentia ditavit. Accipe ergo Vir mei amatissime
gratias facerem pectore fufus. — Egregie servata omnia ad me pervenerunt, deoque
etiam ante omnia summi Te precibus oro atque offero, ut quamprimum et
Diplum, amicitiae honorificentissimae pignus, Meriti mei insigne decus, artificiosum
dexterinae gratissimum specimen, mittas. Laetabuntur etiam meum quam plurimi alii
de tanto munere

Quanto autem desiderio fuerit, propius Te mi dilectissime Conpue
a quo tanta adhuc mihi discenda restant, vivendi eloqui non valeo.
Iam cum proximo anno (vix temporis ^{hocce intervallum} intermedii spatium nequo animo perfero)
Te amplecti ~~et~~ contingeret fufus exponere patero miserum reipublicae
perditissimae statum quem talem esse nunquam opinatus essem.

Ipse hinc annorum spatium ne unus quidem mihi innotuit
qui sua forte contextus hic (et id prope dolor jure quidem) vitas
Resperum etiam habeo Pesselium (Professorem Leidensem, Halsum, quem de republica balon
haurissime scripsisse audio) eadem ^{de nobis} sentire.

Quicquid moliris, quidquid coneris, omnia vana! studiorum nullus amor,
historiae nec nulla omnino cupiditas, eruditionis nullus honor, litterarum
nullus cultor, ne unam quidem ~~librorum~~ librorum collectionem tolerabilem
invenies. Omnia quae huc quodammodo pertinerent videntur Landgravius
longe unius ^{us} et solus possidet, pleraque autem habet non sibi ipsi comparata sed
a ~~mag~~ majoribus relicta. Annuae coctas proximo anno summa erit

adfixerque nostri ^{can ob rem} ~~scilicet~~ fugam venditionem cohibuerunt, apud nos autem
ii qui curam republicae gerunt quantumvis admoniti, tamen
fugam ex portibus ~~hinc~~ non vetarunt - Illorum enim rei non agitur.

Immo novi esse iuxta Principem, qui ei persuaserunt se de temis suis
solicitem esse omnino opus non habere, etiam liberis non venentibus
se dominium derelicturum. notum enim forsitan tibi est Landgravi
a filii sui egregio, absque ulla illorum culpa, alienatum esse. ^{Primum} Hinc vel
Principem auxiliorum venditionis causam citis boni ~~haberi~~ putant.

Sed quorsum haec? pervenio ad me ipsum. Satis tibi meum ardorem,

sufficiant haec, quae tibi, cum rursus meae litterae collatae factae fuerint
demonstrabunt, me non ~~pro~~ more quorundam ~~hominum~~ semper unquam
de sorte, sed optimo potius jure me fortunae mutationem exoptare
interim haec querelas, moeroremque, amicissimum et ^{plurimum} paterno tuo curi
confido; prudentiae esse existimans, dum hic vivere cogor, publicis de hisce
tacere cum adeo perversum reip. conditionem immutare nequeam; Virtutis
severitate plerumque mirra obtinentur, quam prudenti ~~temperantia~~ silentio
quam saepe collaudationem expriment. At mei ipsius causa ad eundem solitum
etiam temporibus adhuc angustioribus ^{numquam} ~~non~~ desissem.

Certe respublica vestra in eo mihi omnes alia regione longe antecellere
videtur, quod quicumque diligens et indefessus, ~~est~~ commode et contente
vivere possit, apud nos autem ~~non~~ herculeum laborem non putantem
ne posse quidem debet. Quorundam etiam omnes generos ^{suos} Hispaniam et
Hollandiam transire solent, sed multo minus mirum, adeo
contentos invenisse, ut de reditu in patriam ^{quidem} ne cogitant quidem.

Gratulor ex animo
