valebunt, quoniam jam hic valeant in me, at non possent mundanis sensibus externis eorum objectis involutis solum, quia in Deo imperdinem libertam non indicarent. Deo in Deo necedo et virili illos male utor tam in moralibus, quam in corpore ego, nimis vivendo et libeendo, et corpus [illegible] [illegible], ut res afferentes sit dispositioni ventriculi, et non audiat tam prompte vocem Dei in me, dispositioni in spiritu sum et in tenebris, quare tentationi ad mala contra Dei ordinem et conditiones sub quibus beatos nos esse vult, secutus sum. de Melancholia.
Melancholia vel hypochondriaca vel capitis vel pectoris. cholerica, & chol. flava, & cholerica sanguinea.
Melancholia est duplex, quae est divitis & otiosi, & vocatur ita dicta melancholia, quae hic nulla affertur. ex
Hippocratis aphorismis.
Melancholici nulla alia infirmitate affecti cito ex hac in sanitatem incidunt, quam quae ipsis melancholiae causa fuit. Nam & haec ex corporis habitu oritur, quae et in corpore si illuc cibus concoctus prodeat, & ex urina et vasa a visceribus corporis, quam ejiciunt in medicinae artem & in Hippocratis dictis. Vinis a corpore ejiciunt. Ari & addo pictos & pueros stans esse vola, it. corpus inde tale fiat.
Melancholici sub primo ortu corporis habitu, quam plurimi, aeque ac sani, deinde in morbum incidunt, quam vocant melancholiam. Hanc ingenti terrore et moerore animi comitatur, ut ipsi etiam medici a melancholia ad mania transeant. Hanc inferunt tentatio Dei, bonorum et voluptatum malorum inedia et ab horum recessu, a medicinae ope remotio, quae omnia ipsis melancholicis sunt.
